SSAS
MANAGEMENT
SERVICE

CLS has nearly 20 years experience as an SSAS service provider. Our SSAS Management Service is based on human intervention, with our team of highly trained operators performing alert verification. This process allows us to qualify alerts and ensure an optimized response at sea in case of attack.

Key Benefits of CLS services:

- 24/7 secure operations
- Secure web interface for both fleet-tracking and SSAS services
- No new equipment necessary - we process alerts from your existing SSAS hardware
- Update point of contact for alerts and tests quickly and easily from the web interface
